WORK EXPERIENCE

Full Stack Developer Intern | Future Interns, Bengaluru   **March 25 - Present**

- Built dynamic web applications with MERN stack, creating smooth user interfaces and robust server-side functionality.
- Designed efficient APIs and database structures alongside senior team members, ensuring secure and scalable solutions.
- Contributed to agile workflow while enhancing application performance and resolving technical issues to deliver high-quality results.

PROJECTS

Job Management System | Live   **December 24 – Present**

- Developed a comprehensive job management platform using MERN stack with separate authentication systems for job seekers and recruiters.
- Built intuitive user interfaces enabling candidates to search, filter, and apply for positions while maintaining their profiles and application history.
- Created a powerful recruiter dashboard with complete CRUD functionality for posting, editing, and managing job listings.
- Implemented secure role-based access controls and data validation to protect sensitive information across the application.
- Designed responsive layouts and optimized database queries to ensure smooth performance across devices and handle increasing user traffic.

E-commerce Headphone | Live   **July 24 – Present**

- Developed the frontend of an eCommerce headphone website using HTML, CSS, and JavaScript**.**
- Created a responsive and mobile-friendly layout with modern design elements.
- Implemented secure role-based access controls and data validation to protect sensitive information across the application.

Weather Application | Live   **January 25 – Present**

- Engineered a responsive weather application using React and Tailwind CSS, delivering a sleek and intuitive user interface that adapts seamlessly across devices.
- Integrated third-party weather API services with a custom Node.js backend to provide real-time weather data, forecasts, and location-based recommendations.
- Implemented efficient state management and caching strategies to optimize performance while delivering accurate weather updates and interactive visualization features.

EDUCATION

Faridpur Engineering College (DU Affiliated)   Faridpur Sadar, Faridpur
Bachelor of Computer Science and Engineering; CGPA: 2.99   **March 2018 – April 2022**

SKILLS SUMMARY

- **Languages:**   JavaScript, HTML, CSS, JSON
- **Frameworks:**   React.js, Next.js, Node.js Express.js, Bootstrap, Tailwind CSS
- **Tools:**   Git, GitHub, Postman, Vs Code, WebStorm, Npm, Vite
- **Platforms:**   MongoDB, Vercel, Heroku, Netlify
- **Soft Skills:**   Problem-solving, Communication, Teamwork, Adaptability, Time Management

CERTIFICATES

Full Stack Web Development with MERN(OSTAD) | CERTIFICATE   **March 24 – December 24**

- Completed a comprehensive MERN Stack Web Development course covering everything from fundamentals to advanced concepts in MongoDB, Express.js, React.js, and Node.js.
- Built multiple real-world projects, gaining hands-on experience in full-stack development, RESTful API integration, authentication, and state management.
- Strengthened problem-solving and debugging skills through practical assignments, collaborative projects, and industry-relevant challenges.

JavaScript Basic Certificate (HackerRank) | CERTIFICATE   **11th March**

- Earned a **JavaScript (Basic) Certificate** from **HackerRank** by successfully completing a skill assessment, demonstrating proficiency in core JavaScript concepts such as variables, functions, loops, and conditionals.
